## Interest Rates Rise on Federal Student Loans for 2018-2019

Interest rates on federal student loans are set to rise for the second year in a row. This table shows the interest rates for new loans made on or after July 1, 2018, through June 30, 2019. The interest rate is fixed for the life of the loan.

### Subsidized vs. unsubsidized

*What's the difference? With subsidized loans, the federal government pays the interest that accrues while the student is in school, during the six-month grace period after graduation, and during any loan deferment periods. With unsubsidized loans, the borrower is responsible for paying the interest during these periods. Only undergraduate students are eligible for subsidized loans, and eligibility is based on demonstrated financial need.*
